## ACQUAINTANCE NIGHT 2021

We would like to invite you to attend our Acquaintance Night on **Tuesday 9<sup>th</sup> February, 6pm to 7:20pm**, to meet your child/ren's teacher(s) and to share information about the learning program for this year. Quality and open communications between home and school are fundamentally important and help build strong relationships and mutual understandings between family, students and teachers. These strong relationships help drive quality education for all students. We are looking forward to a successful year working together and we hope to see you during our Acquaintance Night.

The SA Health and Department for Education COVID-19 restrictions only allow 1 adult per 2 square metres, which in our case equates to 16 extra adults per classroom. Students are not part of the calculations and can attend along with immediate family. Due to the constraints we are providing 4 x 20 minute sessions per classroom to space out the amount of community members on site to maximise the total number of people who can attend. Please ensure that only parents or caregivers are coming to each session.

This year, we are trialling an online booking system for Acquaintance Night which is the same as the one we have used previously for Learning Conversations.

Specific information will be provided during the following sessions:

Session	Time
Session 1	6:00pm – 6:20pm
Session 2	6:20pm – 6:40pm
Session 3	6:40pm – 7:00pm
Session 4	7:00pm – 7:20pm

We encourage you to use this quality time to walk around with your child/ren and talk about their learning.

Further information regarding the online booking process will be sent out to the community early next week.

Kind regards,

Paul Taylor and Anthea Bartlett
