On Wednesday we had an **arborist** inspect the site in preparation for the **boundary fence**. This arborist had previously conducted a tree audit, identifying several problematic trees and limbs that need to be removed. As previously communicated we will be having a number of trees from the front and the carpark removed. Some of which is due to damage from a recent pruning by SA Electricity and some from lack of general maintenance. The company will also do a general clean up of undergrowth and branch litter around the front area. We anticipate the area will be looking a little better until we begin our revegetation process. This work began today and will continue into next week.

Today Lesia and Mr Carter's year 1/2 class hosted Assembly. They shared about their work in numeracy on arrays and their unit on farming, and how to make butter from cream. The class performed a dance which was very entertaining. Instrumental music students from Recorder and Drums also performed, sharing their musical talents.

Today it was Mrs Lawson and Mrs Taylor's class' turn to make butter. Here are Gracie and Alex sharing some with Mrs Bartlett.

On Friday our **Pupil Free Day** will focus on reviewing our previous Site Improvement Plan (SIP) in preparation for our next SIP which will be in effect from 2022-2024. In the afternoon teachers will be unpacking the new Australian Curriculum Planning documents.

Have a wonderful long weekend.

Kind regards,

Paul and Anthea
